

# CALVIN CURRY

## SOFTWARE DEVELOPER

### ABOUT ME

Software development, for me, has provided the greatest puzzle that I have ever solved. I am thrilled to have found an avenue that allows me to use logical thinking to solve problems, use my creativity to turn ideas into tangible applications, and challenge myself intellectually by continuously learning new concepts to further my growth as a developer. I am continuing to learn and grow more each day, and I cannot wait to begin the next chapter of my journey and turn my passion into my career.

### TECHNICAL SKILLS

- JavaScript
- React
- C#
- HTML5
- CSS3
- ASP.NET
- Git/Github version control
- SCRUM methodology

### PERSONAL SKILLS

- Adaptability
- Emotional Intelligence
- Team-oriented
- Creativity
- Organized
- Time management
- Fast learner
- Motivated
- Reliable and professional

### EDUCATION

**CUM LAUDE, BACHELOR OF BUSINESS ADMINISTRATION, MAJOR IN MARKETING/SUPPLY CHAIN MGMT**  
University of Memphis

### EXPERIENCE

#### SOFTWARE DEVELOPER

Nashville Software School (Nashville, TN) | Feb 2020 - present

Intensive full-time 6-month software development bootcamp learning with both individual and team-based projects. Tech Stack includes: C#/.Net, React, JavaScript, HTML5, CSS3, and SQL fundamentals.

#### PROJECTS:

Front-End Capstone: **MARVEL INDEX**

<https://github.com/calvincurry22/Marvel-Index>

- Marvel Index was created to give Marvel comic book readers the ability to keep track of comics that they want to read without being forced to immediately make a purchase decision. It is a full CRUD app that allows users to search for comics from their favorite characters and save them to a personalized reading list that can be accessed at any time. Once a comic from the user's list has been read, it can be removed and stored on a separate list that keeps track of all comics that the user has read over time. Users can also have discussions with each other about topics of their choosing on the forum component within the app.
- **Technologies Used:**
  - **ReactJS using hooks**
  - **React Router for navigation**
  - **CSS**
  - **ReactStrap and Material UI for component design**
  - **Cloudinary for image uploading**
  - **JSON server to access user data in a REST API**
  - **Marvel external API for character/comic data**

#### TERRITORY MANAGER

Ecolab - Kay FRS Division

(Philadelphia, PA) | May 2013 - Dec 2016

(Nashville, TN) | Jan 2017 - Feb 2020

- **Managed** a large territory of accounts covering Southern New Jersey/Pennsylvania/Delaware and Middle TN/West TN/Arkansas/Kentucky. Trained clients on proper food safety compliance in accordance with FDA, state and local regulatory food code
- **Monitored** HACCP plans and OSHA compliance for accounts
- **Conducted** compliance audits for national and regional food retail establishments throughout the US
- **Submitted** daily reports using Microsoft Excel, PowerPoint, Outlook, Concur, and internal software on a VPN server

#### TERRITORY MANAGER

Nestle Purina (South NJ/Philadelphia, PA) | Jan 2012 - Mar 2013

- **Negotiated** \$10,000+ in incremental sales volume in Q4 2012
- **Used** SAP to manage customer data, sales ordering, and weekly expenses
- **Achieved** top 5 highest independent account sales in Q4 2012
- **Managed** \$21MM market of national retail accounts covering North/South New Jersey with a key focus on direct selling, product training, relationship management, incremental leveraging, and inventory control.
- **Analyzed** business metrics to identify gaps and opportunities/prioritize tasks and objectives for each month and quarter
- **Created** and implemented marketing and sales programs to grow key brands with accounts
